APRIL, 1954

REGISTER BOOKS AND OTHER PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER

LLOYD'S REGISTER OF SHIPPING, issued annually in July. This Book contains the names, classes, and detailed information concerning the ships classed by Lloyd's Register and the British Corporation Register; particulars, as far as possible, of all sea-going merchant ships in the World, and of all iron and steel ships trading on the North American Lakes, of 100 tons and upwards; particulars of ships fitted with refrigerating appliances, and a list of Owners and Managers of ships recorded in the Register Book.

The Register is published in two editions; in the Posted Edition the volumes are periodically corrected in type, and Subscribers to the Unposted Edition are supplied with periodical Supplements, for which loose binders are available.

APPENDIX TO LLOYD'S REGISTER BOOK, issued annually in January. This volume contains lists of Changes of Ships' Names; Compound Names; Ships arranged by Nationality in Tonnage Divisions; Deadweight, Capacity, Speed, &c., of Dry Cargo Ships and Tankers; Statistical Tables; lists of Shipbuilders with existing ships they have built; Marine Enginebuilders and Boilermakers; Dry and Wet Docks; Telegraphic Addresses and Codes used by shipping firms; Marine Insurance Companies; and information regarding the Corporation of Lloyd's (Committees, Agents, &c.).

REGISTER OF AMERICAN YACHTS. This Register is published annually in June from the Society's New York Office. Copies may also be obtained on application to the Secretary, 71, Fenchurch Street, London, E.C.3, England.

This book contains the names, dimensions, and full particulars of the yachts of the United States and Canada, so far as they are ascertainable; reproductions in colour of the burgees of yacht clubs and the private signals of yachtsmen; a list of yacht clubs with the names of their officers; an index of signal letters; late names of yachts; and a list of yacht owners of the United States and Canada, with their addresses, clubs and yachts.

REGISTER OF YACHTS. Published annually in April.

RULES FOR THE CONSTRUCTION AND CLASSIFICATION OF SHIPS, &c.:—

STEEL SHIPS, including General Rules and Regulations, Classification Regulations, Periodical Survey Requirements, and Rules for Construction of Steel Ships and Machinery, Boilers and other Pressure Vessels, Electric Propelling Machinery and Electrical Equipment, Pumping and Piping, Fire Extinguishing Arrangements, Machinery Spare Gear, Refrigerating Machinery and Appliances, and Quality and Testing of Materials. A Metric Edition is also available.

EXTRACTS FROM THE RULES:—

No. 1.—Classification Regulations and Periodical Survey Requirements.

No. 2.—Construction and Periodical Survey of Steam and Internal Combustion Machinery Installations, Pumping Arrangements, and Testing Requirements for Materials.

No. 3.—Construction of Steam and Internal Combustion Engines, and Testing Requirements for Materials.

No. 4.—Construction of Boilers and other Pressure Vessels, and Testing Requirements for Materials.

No. 5.—Fire Extinguishing Arrangements.

No. 6.—Construction of Electric Propelling Machinery and Electrical Equipment. A Metric Edition is also available.

No. 7.—Construction and Periodical Survey of Refrigerating Installations in Ships; and Requirements for Frozen Meat Stores and Refrigerated Railway Cars.

No. 8.—Requirements for Quality and Testing of Materials for Shipbuilding and Marine Engineering, with a List of Approved Manufacturers and Proving Establishments.

STEEL TRAWLERS.

YACHTS. Vol. I:—WOOD YACHTS (Sailing, Auxiliary, and Full Power). Supplement (issued 1950).

YACHTS. Vol II:—COMPOSITE AND STEEL YACHTS.

WOOD AND COMPOSITE YACHTS OF THE INTERNATIONAL RATING CLASSES.

GEOMETRICAL PROPERTIES OF SHIP GIRDERS AND SECTIONS (Third Edition—Enlarged). A series of tables giving over a wide range of thicknesses, the sectional area, centre of gravity of area, moment of inertia, and modulus of resistance of various sections and girders (with and without plating) which are commonly used in riveted or welded ship construction.

ANCHORS—APPROVED DESIGNS, comprising lists (1) in alphabetical order of Firms, (2) in alphabetical order of name (if any) of anchors, together with descriptive sketches. Revised and brought up to date, 1945.

Terms of Subscription for the Register Books and prices of other publications upon application

FOREWORD

FORMED nearly 200 years ago, Lloyd's Register of Shipping is a voluntary association of those interests primarily concerned with shipowning, shipbuilding and marine underwriting, and the superintendence of its affairs is directed by a General Committee of Management representative of those interests. It is not a trading concern, has no shareholders and consequently has no interests to consider beyond those which it serves.

Through its Technical Committee the Society ensures that its Rules are kept abreast of current developments, special panels being appointed to deal with specific subjects.

Where yachts are concerned the same procedure is followed in the production of special Yacht Rules; and specially qualified Surveyors are employed for yacht surveys.

PREFACE TO THE 1954 EDITION

THE REGISTER OF YACHTS was first issued by the Committee of Lloyd's Register in 1878 together with Rules and Regulations for the classification of this type of craft and the Society's Rules are accepted throughout the world. The Register has been issued annually ever since except during the two world wars. Two Supplements are printed each year, one being distributed with the book itself and the other about the end of July.

The 1954 Register contains as usual the names, details and characters of all yachts classed by the Society, together with particulars, so far as known, of other British and overseas yachts which are considered to be of general interest, and much other information of interest to yachtsmen.

Owing to the high percentage of yachts built of wood the material of construction formerly shown in column 2 of the Register has now been omitted except where other than wood.

The Register lists details of Canadian yachts; but so far as concerns the United States craft only the larger yachts and those holding the Society's classification are included in this volume, as a separate Register containing a list of yachts of the United States and Canada is published annually from the Society's Office at 17, Battery Place, New York.

Whilst Subscribers are entitled to have full particulars of their yachts entered in the Register, irrespective of size, it is the practice to restrict in general the entries to sailing yachts of a sail area not less than 300 sq. ft. and to motor yachts 25 ft. and over on the water-line.

Owing, however, to the increasing popularity of certain Classes of small craft which are below the size normally accepted for full entry, the Racing Yacht Section, which immediately follows the main Register Section, includes the sail numbers, names and the names of the Owners of yachts holding valid Certificates of Rating in all the British National Classes. Similar particulars are given as far as possible for the 5 Metre and Dragon Class yachts overseas, as supplied by the respective National Authorities.

It cannot be too strongly emphasised that the accuracy and completeness of the Yacht Register depend largely upon the co-operation of Yacht Owners in keeping the Editor informed of changes in ownership and other particulars. Cuttings of all the craft listed in the main section of the Register are sent to the respective Owners annually at the beginning of October, and should be returned promptly with any necessary comments. If no replies to our enquiries are received from Owners and in the absence of any information from other sources over a considerable period, it is assumed either that the yacht is no longer sailing, or that the standing entry is no longer reliable, and the particulars are usually removed from the next edition of the Register.

YACHT CLASSIFICATION AND CONDITION SURVEYS

Classification

The mere entry of the particulars of a yacht in the Register of Yachts does not constitute classification, but classification is open to all types of yachts provided the constructional details conform to the requirements laid down by Lloyd's Register.

An Owner desiring classification should, when ordering a new yacht, specify that the yacht be built to Lloyd's Register class. The Builder will then, through the Designer, become responsible for submitting the necessary plans for the Society's approval, and will request a special survey during construction in accordance with the Society's requirements, so that the appropriate class may be assigned on completion.

Yachts built throughout under Lloyd's Register supervision in conformity with the Rule requirements are assigned the distinguishing ✠ in the Register against the symbol of classification, and this cross is retained in the book even if classification is later discontinued. Subject to the conditions for yachts already built, an existing yacht can be submitted for class at any time, but without the ✠. Conversely, class may be allowed to lapse if the Owner so desires.

For maintenance of classification, periodical surveys and repairs are carried out under the supervision of Lloyd's Register Surveyors; such a procedure helps to keep a yacht in a high state of efficiency and to preserve her sale value, in addition to the benefit of having a competent, independent and experienced organisation to safeguard the Owner's interest. A record of each periodical survey is made in the Yacht Register.

Condition Surveys

The Committee of Lloyd's Register are prepared to undertake Condition Surveys on Yachts, whether classed or not, prior to purchase or in any other circumstances. Details of this service, and of the terms on which it is undertaken will be supplied upon request to the Secretary.

Lloyd's Register Surveyors qualified to undertake surveys on wood yachts are stationed at London, Glasgow and Southampton and can, by arrangement, hold surveys at other ports in the U.K. A list of the Society's Offices at ports throughout the world appears on pages viii to xi.

Yachtsmen, and others interested in the book, are requested to furnish particulars of Yachts not already recorded in the Register, to give early intimation of any changes of ownership, to forward any other information of interest to the Editor, and to reply promptly to any enquiry addressed to them by the Society. Although the book is published in April, it is necessary for the work to be placed in the printers' hands by the beginning of December, the Register Section being passed for press alphabetically from that time onward until completion.

KEY TO REGISTER OF YACHTS

SYMBOLS OF CLASSIFICATION, COLUMNS 10, 11 & 12

(All Abbreviations employed in the Register are explained in the Alphabetical Key, page xvi.)

100A Character of Yachts built of Steel in accordance with or equal to the Society's Rules and Tables.

A Without a numeral prefixed, character assigned to Steel Yachts not built in accordance with the requirements of the Society's Rules, but found to be efficient.

A Character of Wood or Composite built Yachts of the first class. The figures prefixed to the character thus, 18 A, 12 A, indicate the term of years for which the Vessel is at present classed. Where this term follows the sign ✠ (indicating construction under the Special Survey of the Society's Surveyors) it commences at the date of build shown in Col. 7. Figures placed within parentheses thus, (17) A, C(11), indicate the expired term of years—originally if on the first line, and on continuation or restoration if on lower lines.

A Without a term of years indicates that the Yacht, though not built according to the Society's Rules, is considered worthy of the class assigned.

R Character of Yachts built in accordance with the Rules for Yachts of the International Rating Classes both as regards scantlings and equipment. The figures prefixed to the character thus, 16 R, 14 R, in the case of Wood and Composite Yachts, indicate the term of years for which the Yacht is at present classed.

1 The figure 1 after a character signifies that the Yacht is well and efficiently equipped (*see* Equipment Tables of the Society's Rules for Yachts).

A line thus — after the A or A signifies that the equipment is *not* in accordance with the Society's Rules.

In the case of Yachts classed R, the figure 1 for equipment is not employed, the equipment being required in these cases to be in accordance with the Rules for Yachts of the International Rating Classes before the class is assigned.

† Prefixed to the class of a yacht indicates that she is also classed in the Register Book for Merchant Ships, and that the scantlings are equal to the requirements of the Society's Rules for the same.

The figures under a Character denote the date when the Yacht was last Surveyed by the Society's Surveyors.

When the port and date of Survey only appear, without the Yacht's Character, the Character has expired or been withdrawn because a Survey prescribed in the Society's Rules has not been held, or on account of non-payment of fees.

✠ This sign before a Character thus, ✠100A1, denotes that the Yacht has been built under the Special Survey of the Society's Surveyors.

✠ This sign before a classification record of Machinery thus ✠LMC✠NE&B indicates that the Engines and Boilers or both (according to the record which follows) have been built under the Special Survey of the Society's Surveyors.

SYMBOLS OF CLASSIFICATION, COLUMNS 10, 11 & 12—*continued*

—— 3,54 A black line with date underneath indicates that the Yacht's Character was expunged from the Society's Register of Yachts at the date mentioned because, on account of reported defects, the Yacht was not entitled to a Character.

3,54 A red line with date underneath indicates that the Yacht's Character was expunged from the Society's Register of Yachts at the date mentioned because, on account of non-compliance with the Society's Rules as regards Surveys, the Yacht was not entitled to retain her Character therein.

... 3,54 This sign with date underneath indicates that the Yacht's class was withdrawn at the date mentioned from the Society's Register of Yachts at Owner's request.

When the eleventh and twelfth Columns are left blank, the Yacht has never been Classed in the Society's Register of Yachts.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS

N.B.—The material of construction, formerly shown in column 2, is now omitted except where other than wood.

Consecutive No. (column 1). The number in large black type is the consecutive number of the yacht in the Register and usually changes with each edition.

Official No. (column 1). The number in small figures is the official registered number of the yacht, assigned by the National Authority. In the case of British and Commonwealth yachts it is assigned by the Registrar General of Shipping and Seamen, Llantrissant Road, Llandaff, Cardiff.

Signal Letters (column 1). These are assigned by the National Authorities.

Tonnage (column 4). Thames Measurement Tonnage is an approximate representation of the internal capacity of a yacht derived from a system of measurement adopted by the Royal Thames Yacht Club in 1854. The formula for computing the Thames Measurement tonnage is as follows:—

$$\frac{(L - B) \times B \times \frac{1}{2}B}{94}$$

Where L = length measured from the fore side of stem to the after side of sternpost on deck (or in British unclassed yachts officially registered, the Registered length).

B = extreme breadth.

This tonnage appears in the Register in the case of every Yacht, where these dimensions are known, and is printed below the official tonnages where these tonnages are given.

Where Yachts are officially registered, the official registered tonnage measured according to the law of the country to which the Yacht belongs is recorded in type like that shown at the side hereof. } 204·51 (Net) 546·65 (Gross)

When the tonnages are given in italics, they are not those assigned by the country to which the yacht now belongs. } *204·51* (Net) *546·65* (Gross)

Dimensions (column 5). The dimensions which are printed on the top line are given in feet and tenths of a foot and are those employed for calculating Thames Measurement tonnage. In the case of yachts classed by Lloyd's Register, these are obtained from the Society's Surveyor's First Entry Report of Survey; where yachts are not classed by the Society, but are officially registered, the dimensions are obtained from the vessel's Certificate of Registry. In other cases the dimensions are as given on returns received from Owners, Builders, etc.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS—*continued*

The **length** entered on the top line is the length measured from the fore side of stem to the after side of sternpost on the range of the upper deck, except in the case of unclassed yachts which are officially registered as British vessels, when the registered length is recorded.

The length entered on the second line is the length over all.

The length entered on the third line is the length on the water line.

The **breadth** recorded is the extreme breadth.

The **depth** is taken from the top of floors to top of upper deck beams amidships.

The **headroom** is the maximum clear space from top of floor or cabin deck to underside of beams at upper deck or coach roof *in way of Owner's accommodation (saloon)*.

The **draft** is the maximum draft to bottom of keel.

The **sail area** recorded is the area of the working sails and is given in square feet.

Date of Build (column 7). This is recorded as follows in the cases of yachts built under Lloyd's Register Special Survey:—

Prior to 1903	Date of Launch.
From 1903–1924	The last date of survey for first entry of classification when completed within six months of launching; otherwise six months after date of launch.
After 1924	Date of completion of Special Survey.

Internal Combustion Engines (column 8)—

Oil Engine indicates an internal combustion engine using heavy oil as fuel.

Petrol Motor indicates an internal combustion engine using petrol or other highly volatile oils as fuel.

Paraffin Motor indicates an internal combustion engine using paraffin oil as fuel although started up on petrol.

The **R.O.R.C. Ratings and Time Correction Factors** (columns 9 & 10) are furnished by the Royal Ocean Racing Club, and have been calculated with an allowance for the propeller (if fitted).

An asterisk * (column 9) before an Owner's name indicates that he has obtained a Certificate of competency as Master, as issued by the National Authority.

SIGNS AND ABBREVIATIONS

Abbreviation or Sign	No. of Column	Signification
		A
a	8 or 9	Aft.
APT	4 or 9	After Peak Tank (with tons).
A&CP	10 or 11	Anchors and Chains proved at a Public Machine recognised by the Committee of LLOYD'S REGISTER. (See Equipment Tables in the Rules for Yachts.)
alm reb.	5 or 8	Almost rebuilt (with date of the work).
alts.	5, 8 or 9	Alterations (with date).
A.S.	9	Annual or occasional Survey prescribed in the Society's Rules for Wood, Composite & Steel Yachts and Yachts of the International Rating Classes (with Port of Survey and date).
Asp	2	Asphalted.
Aux	2	Auxiliary.
		B
B	11 or 12	Bronze Screw Shaft.
B	8	Boilers (with number prefixed).
BH	2	Bulkheads (with number prefixed).
BK	5	Bar Keel (with depth).
BS	10 or 11	Boilers surveyed (with date), denoting that the Boilers were found, upon inspection by the Surveyors to LLOYD'S REGISTER, to be at that time in good condition.
B&MS	10 or 11	Boilers and Machinery Surveyed (with date), denoting that the Boilers and Machinery, though not fitted strictly in accordance with the Rules, were found, upon inspection by the Surveyors to LLOYD'S REGISTER, to be at that time in good condition.
BHP	8	Brake Horse Power as published by the engine makers.
BI.S	10	Biennial Survey prescribed in the Rules for Wood Yachts (with Port of Survey and date).
Bm / Bmu	3	Bermudian.
		C
C.	2	Coppered (with date).
C	8	Compound Engines.
C	12	Placed before figures within parentheses thus, C(8), signifies the term of years for which the class of the vessel had been Continued, but which is now expired.
C.B.	2	Copper, Naval Brass or Yellow Metal bolted in accordance with the Rules for the building and classification of Wood Yachts and Composite Yachts.
c.b.	3	Centre Board.
cf	8	Corrugated furnaces (with number prefixed).
C.F.	2	Copper, Naval Brass or Yellow Metal fastened in accordance with the Rules for the building and classification of Wood Yachts and Composite Yachts.
CL	11 or 12	Screw shaft fitted with Continuous Liner.
CS	11 or 12	Centre screw shaft, when three are fitted, with date when this shaft last seen.
Cell DB	8 or 9	Cellular construction of double bottom.
Cem	2	Cemented.
Cont	9	Continuation of Class, with the name of Port of Survey and Date, also number of years for which the Character A or R is continued.
Cut	3	Cutter.
Cy	8	Cylinders.
		D
DA	8	Double acting.
DB	9	Double Bottom.
DBS	9 or 10	Donkey Boiler Surveyed (with date), denoting that the donkey boiler was found, upon inspection by the Surveyors to LLOYD'S REGISTER, to be at that time in good condition.
DF	2	Direction Finder (Wireless).
DS	5	Decks sheathed.
DT	9	Deep Tank.
Dks	2 or 5	Decks.
		E
E.S.D.	2	Echo Sounding Device.
		F
f	8 or 9	Forward.
F	5	Forecastle (with length affixed).
FD	8	Forced Draught.
FK	2	Flat Keel.
FPT	5 or 9	Fore Peak Tank.
		G
GIB	2	Galvanised Iron Bolts.
GS	8 or 9	Grate Surface of Boilers (with area in sq. ft.).
GSB	2	Galvanised steel bolts.
Gtr	3	Gunter.
GyC.	2	Gyro-Compass.

Abbreviation or Sign	No. of Column	Signification
		H
H	8	Horizontal Engines.
HP	8	Horse Power.
HS	9	Heating Surface of Boilers (with area in sq. ft.).
H.T.	10	Half Time or Intermediate Survey held, with date.
		I
IB	2	Iron Bolts.
Int. R.	5	International Rating.
		K
Kch	3	Ketch.
		L
LA&CP	10 or 11	Anchors and Chain Cables proved at a Machine under the superintendence of the Committee of LLOYD'S REGISTER. (*See* Equipment Tables in the Rules for Yachts.)
LCP	10 or 11	Chains proved at a machine under the superintendence of the Committee of LLOYD'S REGISTER. (*See* Equipment Tables in the Rules for Yachts.)
LMC	12	Lloyd's Machinery Certificate (with date), denoting that the Machinery and Boilers are fitted in accordance with the Rules, and found by the Surveyors to LLOYD'S REGISTER to be, at the date given, in good condition.
✠LMC	12	The ✠ signifies the Special Survey of Machinery and Boilers during construction by the Surveyors to LLOYD'S REGISTER.
LMC(M)	12	Lloyd's Machinery Certificate (with date), denoting that the Internal Combustion Engines were found in good condition by the Surveyors to LLOYD'S REGISTER after modified Survey at the time mentioned.
Lch	3	Launch.
len.	5, 8 or 9	Yacht lengthened (with date).
lrp	5, 8 or 9	Large repairs to hull of Yacht.
Lug	3	Lugger.
		M
MN	8	Machinery Numeral. (This figure has been in use since September, 1949, for computing the fees chargeable for the survey by the Surveyors to LLOYD'S REGISTER of the machinery of yachts holding the Society's classification.)
MS	10 or 11	Machinery Surveyed (with date), denoting that the Machinery was found, on inspection by the Surveyors to LLOYD'S REGISTER, to be at that time in good condition.
Mat.	5, 8 or 9	Materials (with number of years prefixed), indicating the different grades of Wood used in Yacht's construction when originally built or at date of classification.
Mchy.Aft	2 or 3	Machinery fitted aft.
mo.	7	Month of build.
mot.inst.	9	Motor installed.
MT	4 or 9	Midship deep tank.
		N
N	11	Yacht classed in the Norske Veritas.
NB	8	New Boiler (with date of build).
✠NB	10 or 11	New Boiler *specially surveyed* during construction. The date of construction follows.
ND	5 or 9	New Deck (with date).
NDB	8 or 9	New Donkey Boiler.
NE	8	New Engines (with date of build).
NE&B	8	New Engines and Boilers (with year of build).
✠NE&B	10 or 11	The ✠ signifies the Special Survey of Engines and Boilers during construction by the Surveyors to LLOYD'S REGISTER.
NHP	8 or 9	Nominal Horse Power by the formulæ given in the Society's Rules. In cases in which the particulars of boiler pressures and surfaces are not known the NHP is printed within brackets.
NS	11 or 12	New screw shaft with date of examination.
NS(B)	11 or 12	New screw shaft (bronze) with date of examination.
nkl	5, 8 or 9	New Keel.
		O
O	8	Oscillating Cylinders.
OG	11 or 12	Screw Shaft fitted with Oil Retaining Gland at after end of stern bush.
		P
P	5	Poop Deck (with length affixed).
pf.	8	Plain furnaces (with number prefixed).
PS	11 or 12	Port Screw Shaft with date when shaft last seen.
pt.	2	part.
		Q
Q	5	Raised quarter-deck.
Q	8	Quadruple expansion engines.

Abbreviation or Sign	No. of Column	Signification
		R
R	11	Yacht classed in the American Bureau of Shipping.
R	12	Placed before figures within parentheses, thus R (8) signifies the term of years for which the class of the vessel was Restored, but which is now expired.
Radar	2	Yacht fitted with installation of Radar.
reb.	5, 8 or 9	Rebuilt.
Ref. mchy..	2	Refrigerating machinery.
Ren.	9	Renewal Survey prescribed in the Society's Rules for Wood Yachts (with Port of Survey, date and term of years for which Class has been renewed) thus: "Ren.Sou.*Jan.*54-4".
Rest	9	Restoration of Class, with the name of Port of Survey and date, also number of years for which the character A or R is restored.
RFD	5	Raised fore deck.
RP	8 or 9	Horse Power according to Yacht's Official Register.
Roof	2, 5 or 9	Yacht built under a permanent and watertight roof, as per Section 21 of the Society's Rules for Wood Yachts, also Section 4 in Supplement, Section 13 of the Rules for Composite Yachts or Section 5 of the Rules for Yachts of the International Rating Classes.
RT	2	Radio Telephone.
		S
S	11 or 12	With date—date when screw shaft last examined.
S3,54CL ..	11 or 12	Screw shaft fitted with Continuous Liner, with date when this shaft last examined.
S3,54OG ..	11 or 12	Screw shaft fitted with oil retaining glands at after end of stern bush, with date when this shaft last examined.
S3,54B	11 or 12	Bronze Screw Shaft, with date when this shaft last examined.
s	2 or 5	Sheathed in wood.
SA	8	Single acting.
SB	8 or 9	Single ended Boilers (with number prefixed).
Sc	3	Screw.
2S.C.	8	2 stroke cycle.
4S.C.	8	4 stroke cycle.
s.s.	9	Special Survey prescribed in the Society's Rules for Iron or Steel Yachts (with Port of Survey and date, thus: *s.s.*Brs.*No.*2–54).
S.S.	9	Special Survey prescribed in Section 8 of the Society's Rules for Wood Yachts (with Port of Survey and date).
S.S.	9	Special Survey prescribed in Section 7 of the Society's Rules for Composite Yachts (with Port of Survey and date).
SS	11 or 12	Starboard Screw Shaft, with date when this shaft last seen.
Sch	3	Schooner.
side ppr...	8	Side propeller.
Slp	3	Sloop.
Smk	3	Smack.
Spt	8	Superheater.
Stl	2	Steel.
Stm	3	Steam.
Sub. Sig...	2	Vessel fitted with submarine signalling apparatus.
		T
T.	8	Triple expansion engines.
t	9	Tons (water ballast).
Trp Sc....	3	Three Screws.
Twn Sc ...	3	Twin Screws.
		U
U	2 or 5	Upper deck.
uE&B.....	8 or 9	Under engines and boilers.
		V
V	11	Yacht classed in the Bureau Veritas.
		W
W.B.	9	Water Ballast.
W.L.	5	Length on Water Line.
ws	2 or 5	Sheathed with wood.
W.T.B.....	8	Water-tube boilers.
		Y
Y.M.	2	Sheathed in Yellow Metal (with date).
Ywl	3	Yawl.
